Overview

Specifications

Based on the AMD Opteron™ 64-bit architecture, the Thunder K8S Pro (S2882) is a powerful and stable server platform for today's demanding performance requirements.

Thunder K8S Pro (S2882) is a specially designed platform with competitive features such as eight DIMM slots for 16GB of excellent memory performance, IPMI compliant server management support, and Gigabit Ethernet/Fast Ethernet LAN ports for powerful broadband connectivity. The Thunder K8S Pro (S2882) is ideal choice for 1U and 2U server environments.
