

# **A MESSAGE FROM THE SURPLUS TRADERS TEAM**

## **DEAR VISITORS**

**We live in a world with over a billion websites! A mind-blowing amount of information.  
Over 21,000 pages of that information, live on SURPLUSTRADERS.NET**

**We've built our site slowly, using the fundamentals of common sense and logic.  
We're hard at work 7 days a week, adding merchandise, indexing, cross-referencing,  
and updating quantities, to ensure we give our loyal readers, what you seek, easily.**

## **OUR GOAL:**

**To have you think of our internet catalog, as YOUR internet catalog!  
To be your mainstay source for your surplus electronic component requirements,  
encouraging you to come back often!  
But let's face it; navigating around has to be easy for those repeat visits to happen.**

**Having said that, we MEAN it when we ask:  
"What can we do to make your visit to our site, more powerful & efficient for you?"**

**Please take a moment to offer your feedback, suggestions and inquiries to us  
by email: [shari@surplustraders.net](mailto:shari@surplustraders.net)**

**In a world with a billion websites, Surplus Traders is dedicated to delivering the very  
best website, to source all your Surplus Requirements with ease.**
